# Facebook marketplace not loading android

To remove extensions on Google Chrome, open Chrome on your PC, find the extension icon at the top right in the address bar, right-click on it and select Remove from Chrome. An outdated version can be a reason why Facebook Marketplace is not working properly. The platform doesn't allow recently created accounts to access Marketplace to protect the Marketplace community from scams. When they restore your Marketplace access, refresh facebook.com or download the newest version of the app. Confirm it by clicking Remove on the popup. 4. So, download and install another browser of your choice, log in to Facebook and check if you can access Marketplace. Select Request Review if your access has been removed. If you can't find the icon, follow the steps: 1. Uninstall and Reinstall Facebook Uninstalling and reinstalling Facebook can be a good option to fix Facebook Marketplace not working on your mobile. The idea behind this platform is as simple as its name, an environment that allows the local exchange of goods between buyers and sellers. 2. Facebook Marketplace not working: How to fix it? Here's the process: 1. Try uninstalling and reinstalling the app if the problem still prevails. How to Fix Facebook Marketplace Not Working? Then, visit Play Store and download Facebook. Removing such browser add-ons/extensions can troubleshoot the problem. Follow the guide to learn quick fixes for all devices. 6. Fill out the form. The Facebook team will review your appeal and respond through your Support Inbox and email associated with the account. Sometimes, browser cookies, cache or temporary data prevent you from accessing sites faster. Request A Review Facebook can remove your Marketplace access when you've gone against their Community Policies. Switch to Another Browser When you can't access Facebook Marketplace on a browser, switch to another browser to solve your problem. But rather than being just a social networking account, it's a marketplace. Marketplace is a social networking site that allows users to buy and sell products locally or from businesses. While the platform was much appreciated when it was first launched, it has recently come to the heart of criticism for having included many technical issues. Click on 'Other tools>Delete navigation data>Delete data.' As far as mobile users are concerned, they need to make sure they are using the most up-to-date version of the app. © 2021 Facebook. All rights reserved. Facebook Marketplace is not available in the account as the language and location you set are not accepted on the Marketplace. Last update: 6 May 2021 12:00 IST Image: Shutterstock Facebook has succeeded in increasing its basis from a simple application of social networking to bring the digital market over its shoulders. Set the time interval to all the time from the drop-down menu. For desktop users, click Marketplace from the menu on the left of News Feed. Then update the account settings to take advantage of the option. option.
