He was born in Frostbite Falls, Minnesota, but left when he was only six months old because he was too cold. The first chapter aims to teach the mechanics of how JS works and what happens at the time of its execution. Cut your mind to think about the next paradigm of programming languages and what is beyond the limitations of our existing language paradigms. He worked on learning systems, small business systems, office automation, games, interactive music, multimedia, location-based entertainment, social systems and programming languages.
